

MORGAN J. O'BRIEN ILL.

CHICAGO, Dec. 14.—Morgan J. O'Brien, former Justice of the Supreme Court of New York, is a patient in Mercy Hospital, where he is undergoing observation preparatory to a heart operation.

O'Brien was taken ill on a train returning from Spokane, where he had been speaking. His illness is not regarded as serious, although it is announced he will be forced to remain in the hospital for a short time.

The wife of Justice O'Brien stated over the telephone today from her home, No. 735 Park Avenue, that a telegram had informed her that her husband will be convalescent in a few days. Following his retirement from the Supreme Court, Justice O'Brien resumed the practice of law.

PICTURE OF RING SOLVES IDENTITY OF MURDER VICTIM

Mother in Finland Recognizes
Gem Worn by Girl Slain in
Bronx Two Years Ago.

Light has been shed on one of New York's unsolved murder mysteries by the photograph of a woman's ring sent to Finland by the Bronx Detective Bureau. As a result, the body of the young woman found under a pile of stones on the Astor estate in the Bronx April 10, 1915, has been identified as that of Hilda Sophia Tanjans, of Finland.

Boys hunting snakes on the Astor estate found the body. The only distinguishing article found on it was a ring. Jewellers said the ring was made in Finland, and the detectives sent photographs of it to that country, where they were published in several newspapers.

Among those who saw the pictures was the mother of a young woman known to be in this country. She communicated with Mrs. Joseph Johnson of No. 344 Traphagen Street, North Bergen, N. J., and Miss Hilda Johnson of No. 178 Dwight Street, Jersey City. Both knew the girl in Finland, and she had lived with Mrs.
